

How you can help

SPLHS desires to offer the Saint Paul Lutheran High School Church Worker Program with little to no tuition to students to allow future workers a pathway of education to Lutheran colleges and Seminaries. This is only possible with your generous support to the Saint Paul Lutheran High School Endowment fund which will support future church workers for generations to come.

If you would like to contribute to the For All His Saints Endowment Fund, please contact Clint Colwell, Director of Advancement at ccolwell@splhs.org for more information.

SPLHS is a proud partner in ministry with Lutheran Bible Translators, Concordia Mission Institute, Mission of Christ Network, Concordia University, Nebraska, and the Concordia Music Conservatory.

Church Worker Program

Equipping the Next Generation

The Saint Paul Lutheran High School Church Worker Program is designed to equip students to become leaders within our church community locally and worldwide. By offering academic excellence, spiritual growth opportunities, and practical learning, students will be equipped with the knowledge and skills necessary to enter into joyful, faithful service to Christ and His world.

The Saint Paul Lutheran High School Difference

Saint Paul Lutheran High School is unique in the LCMS as the last of the LCMS boarding schools with a history of preparing students for work in Christ's church, which makes SPLHS the Lutheran school of choice for students worldwide.

Exemplary Christian Education

With a 140-year history of preparing students to enter into work in the church, SPLHS is distinctively set apart to prepare students in such areas as teacher, pastor, director of Christian education, deaconess, director of church music, and missionary service.

Partnering with Concordia University, Nebraska for our dual credit college program, SPLHS is expanding over 30 college credit hours to include Old Testament, New Testament, and Introduction to Education.

Academic Excellence

Math and Science

Students come from all over the world because of our reputation for STEM education centered around the truth of our Creator. The God of the Old and New Testaments is also the God of science and mathematics.

Fine Arts

SPLHS has a long history of excellence in art and music education, creating opportunities for making, enjoying, and sharing God's gift of music.
